

FlexSpace: Facts

620 fetriste rebitsing places (more space)

86 in in olyteatise as (\$\psi 20 \text{ buildings about efficiency})

20 vepartistipatikasel discibility on fooliule sequipment)

An by pease earliest te factis teasts rane codes (k is country charge a gradin)

FlexSpace: Schedule

09 / 2017: First idea

10 / 2017: First discussions and contact with MNF

12 / 2017: User needs workshop MSc, PhD, WIMI

▶ 04 / 2018: First meeting with architect

07/ 2018: Project proposal submitted

04 / 2019: Start detailed project planning

10 / 2019: Start implementation

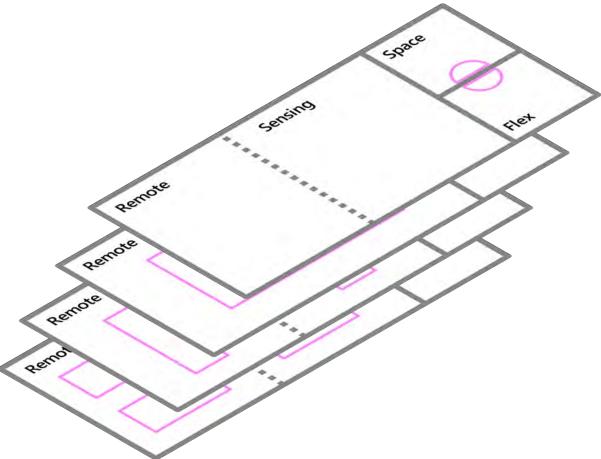

12 / 2019: Opening & start site assessments

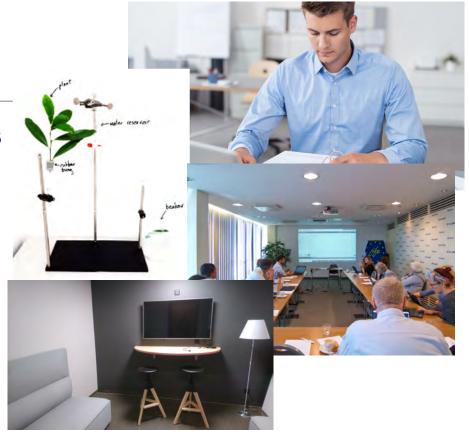

12 / 2020: End site assessments

FlexSpace: 1 area, 4 types of use, 4 rooms

Remote & Sensing

- 1) Focused individual work
- 2) Experiments and project work (few small groups)
- 3) Conferencing and presentations (large groups)

Flex & Space

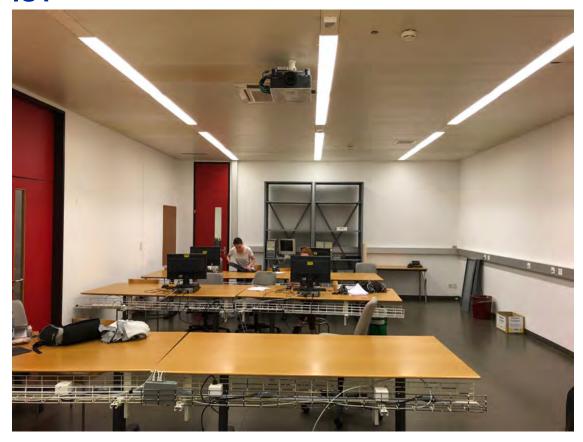

4) Confidential communication

Concept of use, side studies and rules (Barbara)

FlexSpace: New concept of use

2 Goals:

- > Improve usability and user experience of limited but little-used workspace
- Reduce property costs

3 Main approaches:

- User oriented upgrade of working environment
- Introduce flexible workspace that supports multi-functional uses
- «Peace making»: move disturbing activities in multi-person offices to these upgraded pilot rooms

Use Concept

Workplace Change | Structured Learning Strategy

- Structural solution
 - private territory (T = Alex) \rightarrow
 - (1) semi-public territory (Alex < T < public) →
 - (2) s e m i public (J-floor, allgiuz, allgiuz & selected guests UZH)
 - gradually increase complexity of the learning scenario = expand the circle of users
 - do not allow new users for a critical time to maintain a constant number of stakeholders and user/resource ratio (Ostrom, 2013)
- Tiny spatial competence training
- Accompanying evaluation (e.g. interior design, policy check) by means of a quasiexperimental design with several measurement points

Room Pilot Change Agents

We need your (prof, group leaders) help as Change Agents:

- 1. Be knowledge multiplier (i.e. formal and informal rules)
- 2. Share «informal» feedback about the room pilot
- 3. Help to interpretate the anonymous pulse-poster-feedback

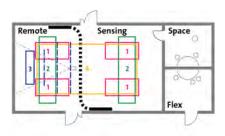

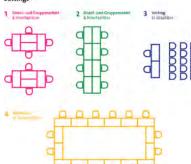

Faculty of Science Medizinische Fakultät Vetsuisse-Fakultät Portfoliomanagement

Use Rules (Policy)

Room «Remote» «Sensing»

Settings

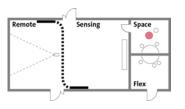

Rules of Use

- . This room's equipment is meant to be used (curtain, dimmer, etc.).
- Simply choose a workspace and start to work silently.
- Ad-hoc discussion? Just change to «Space» or «Flex».
- Be fair if you leave a workspace for 60+ mins: clean "your" desk and take all your belongings with you!
- You want to work in a group of 5+ people / give a presentation / conference / ad-hoc teaching or training / 4+ people with equipment? Please reserve «Remote» or «Sensing» or «Remote Sensing».
- Room (part) reservations? You can do it directly yourself in GIUZ Rooms if you belong to the groups from the J-floor (restriction to J-floor during 1st pilot phase, only).
- . Max. reservation time: duration of activity.
- Room (part) reservations have priority over individual work.
- At the moment, all people from J-floor groups are welcome to use.
 Simply, those with small workloads (e.g. tutors, interns, employees with
 <20% level of employment, guests) have priority over the others.
- At the end: Move your table(s) and chair(s) back to Setting 1, draw back curtain, clean whiteboard(s) and move back against wall, switch off beamer / light.

And sorry, all mobile whiteboards must stay in this room .

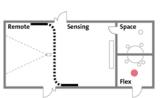

Room «Space»

Rules of Use

- This room's equipment is meant to be used.
- Simply plug in and start to work / start your video call.
- Need more space? Just fold down the table top.
- Light too bright? Just dim it.
- Main activities: Phone or video calls, group work / collaboration up to 4 people.
- Duration of use: Ad hoc 1 hour. This room cannot be reserved.
- At the end: Fold up table, clean whiteboard, switch off screen / camera / light.

Room «Flex»

Rules of Use

- This room's equipment is meant to be used.
- Simply plug in and start to work / start your video call.
- Need more space? Just fold down the table top.
- Light too bright? Just dim it.
- Don't want to be kicked out? Reserve this room in GIUZ Rooms. You can do it directly yourself if you belong to the groups from the j-floor (restriction to J-floor during 1st pilot phase, only).
- Max. reservation time: 2 hours
- . Main activities: Phone or video calls, group work / collaboration up to 4 people.
- At the end: Fold up table, clean whiteboard, switch off screen / camera / light.

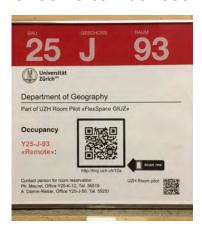

And sorry, the couches must stay in this room @

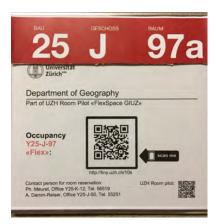

Digital room booking system

Booking is required for planed and ad-hoc activities

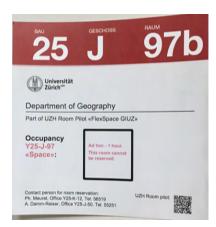

3 rooms can be reserved

1 room cannot be reserved

Via *Rooms (rooms.geo.uzh.ch)*, a well-known and accepted room booking tool Contact persons: Alexander Damm, Philippe Meuret

Faculty of Science Medizinische Fakultät Vetsuisse-Fakultät Portfoliomanagement

Evaluation: Road map

10 / 2019: 2-week site assessment of pilot rooms (n = 200), users work environment survey, (non)users

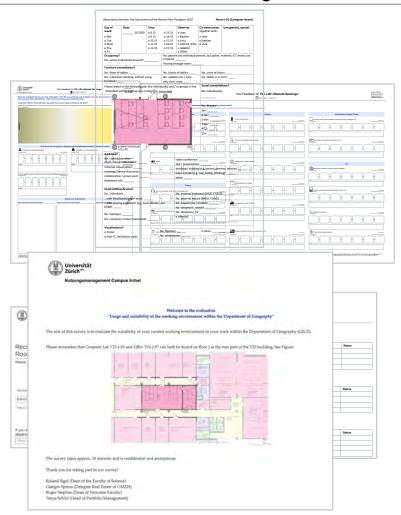

11-12 / 2019: Redesign

12 / 2019: -

Puls poster & ad-hoc site assessments, users, feedback

06 / 2020: 2-week site assessment of pilot rooms (n = 200), users work environment survey, (non)users

12 / 2020: 2-week site assessment of pilot rooms (n = 200), users work environment survey, (non)users

Change Agents

Joint steps:

- Opening ceremony for initial knowledge transfer (= small intro in room functionality and rules)
- 2. Kindly forward updates (via mail) to your group
- 3. Participate in short (30 min) feedback rounds (end of 01/2020)
- 4. ...
